Comune di
Calvi dell'Umbria

NATURE

The forests of oak and pine forests of Umbria Calvi offer fans and visitors the possibility to make interesting walks along the paths that develop from the historic center of the town until you reach the top of Mount St. Pancrazio.

It is different paths, with different degrees of difficulty, all reported and cleaned up thanks to the Association viatores Umbro Sabines, who for some years now is in charge of their maintenance and organizes hiking and mountain biking. Part of the trail network Calvese was recently listed in the Way of Protomartiri Franciscans, a journey of faith that connects all the birthplace of these early martyrs who followed St. Francis in its path.
